WORK HISTORY

March 2019 - 2022 **Grupo éxito-Cashier**, Medellín, CO

- I was part of a program called pilosos, which consisted of training employees as fullstack web developers. In this program I was recognized for my outstanding and mobilizing actions in the field of innovation.
- I learned the importance of tolerance and empathy with others.
- I learned that good teamwork is vital to accomplish goals and objectives.
- Operated cash register for cash, check and credit card transactions with excellent accuracy levels.

Projects

Chocotela e-commerce

Chocotela is an e-commerce where you can enter to buy the products of the store Chocotela, this project tested my Front-End skills to achieve customer satisfaction with your dream e-commerce.

Mentorias Educamás

Mentorias Educamás is a project that has the function of making a match between mentors and students of the simplone-educamás coding school. In this project I tested my skills as a back-end developer.

NasaApi

In this project several APIS provided by NASA are consumed, thanks to this I test my skills with REST APIS.

If you want to see more projects, I invite you to take a look at my portfolio.
